**DETAILED ACTION**

1. Applicant's arguments filed on 12 October 2004 with respect to claims 1- are persuasive. Therefore, the rejection of claims 1,3,4,6-11,13-17,19,20,22-27 and 29-36 under 35 U.S.C. 103(a) is being now withdrawn.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mok, Wing (Reg. No. 56,237) on March 14, 2005.

In the claim

The application has been amended as follow:

Claim 1, line 1, change "A method in a data processing system for managing cookies, the method comprising:" to - - A computer-implemented method in a data processing system for managing cookies, the method comprising: - -.

Claim 9, line 1, change "A method in a data processing system for managing cookies, the method comprising:" to - - A computer-implemented method in a data processing system for managing cookies, the method comprising: - -.

Claim 14, line 1, change "A method for managing cookies in a data processing system, the method comprising:" to - - A computer-implemented method for managing cookies in a data processing system, the method comprising: - -.

### **REASONS FOR ALLOWANCE**

3. Claims 1, 3, 4, 6-11, 13-17, 19, 20, 22-27 and 29-36 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1, 15, 17, 30, 31 and 33 the claimed features "presenting a list of unsaved cookies; and selectively saving a portion of the unsaved cookies, within the list of unsaved cookies, to a permanent data storage" in combination with other element of the independent claims would not found anticipated or obvious over the prior art made of record. With respect to claims 9, 14, 16, 25 and 32, the claimed features "presenting a list of cookies received during the browser program session; and selectively saving a particular cookie within the list of cookies to a permanent data storage" in combination with other element of the independent claims would not found anticipated or obvious over the prior art made of record. With respect to claims 34, 35 and 36, the claimed features "displaying, in response to a signal to terminate the browser session, a list of cookies temporarily stored during the browser session" in combination with other element of the independent claims would not found anticipated or obvious over the prior art made of record.

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

The closest prior art, U.S. Patent No. 6,421,729 issued to Paltenghe et al., relates to Internet web-based client/server applications. U.S. Patent No. 6,237,033 issued to Doeberl et al., relates to a system for managing protocol headers but fail to teach the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
